ALBERT EINSTEIN

## PETER-JOHN PRINSLOO

SPEAKER / CONSULTANT / FACILITATOR

### THE AWARENESS MODULE

We believe every person has an infinite capacity to learn, create and contribute. We are dedicated to finding solutions for challenging behaviour by providing strategies and resources that help kids find success in the classroom and in life. We do this by using our unique system based on child psychology and evidence-based systems practiced in the field.

The Awareness Module is part psychology, part ethics, and a lot of fun.

### PETER-JOHN PRINSLOO

PJ has been working with children and youth for 20 years. He began this journey with the Attorney General as a youth facilitator in racial relations and violence prevention. PJ is also a Certified Safe Teen facilitator and has helped thousands of youth find positive solutions to the challenges of adolescence. Presently the Vancouver School Board takes advantage of PJ's expertise to support the districts most challenging kids and guide them towards success in the school setting. With a stellar track record and a revolutionary approach, PJ has found remarkable traction where others have failed. He loves teaching his methods to peers, so that they too, may find the same results and create a positive learning environment for all.

### WORKSHOP EXPECTATIONS

The Awareness Module workshops are always experiential and interactive. Throughout the workshop, you will be on your feet thinking and feeling the topics and theories discussed. Our goal is to give you more than an intellectual understanding so your team can feel confident moving forward with all the strategies learned in these jam-packed sessions of growth and learning. We are always available for follow up and continued guidance to ensure success. Get ready to play, learn, and connect.
